OUR *Services*

FULL-SERVICE INTERIOR DESIGN We love working with clients from start to finish! With our Full-Service package, we guide you every step of the way—from conception to final installation.

The process begins with establishing a design vision that fits your lifestyle. Next, we translate that vision into your home through space plans, renderings, and selections of finishes and furnishings. From there, we refine every detail and determine all the final touches, while communicating the plans to all relevant parties.

RENOVATION / BUILD Whether you are knocking down walls in your existing home, renovating your kitchen or bathroom, expanding with an addition, or building from the ground up, we are here to create the space of your dreams. Our architectural and construction knowledge enables us to work seamlessly with all trades and ensure that our vision is brought to life.

FURNISHING We believe that homes should be carefully crafted, thoughtfully curated, and embody livable luxury. When you are working within an existing room and don't require construction, we can dramatically transform your space through furnishings, window treatments, paint, and other decorative details.

PHASE

PHASE One

SPACE PLANS & CONCEPTS 4-6 WEEKS

Phase one focuses on defining the design vision. We create comprehensive space plans and layout options tailored to how you live in your home. Through a combination of overhead floor plans and perspective renderings, you'll clearly see the flow and function of the space. Concept boards further illustrate the aesthetic direction and design intent.

The purpose of this phase is to confirm your scope, layout, investment estimate, and aesthetic direction before moving on to the next phase.

PHASE

FURNISHING & MATERIAL SELECTION

8-26 WEEKS*

During phase two, we make decisions on fabrics, colors, finishes, and all furnishings. Material samples and swatches are gathered and presented to you along with updated concept boards.

This presentation will take place in your home, in our studio, or in a retail showroom.

***Timeline may vary due to construction schedules, vendor lead times, and marketplace availability.**

FINAL INSTALL & STYLING

Our third phase is all about the final details. Our business model includes a flat design fee, with all purchasing and execution managed through us. We place product orders, track deliveries, and resolve any deficiencies on your behalf. We also coordinate closely with contractors and tradespeople to ensure they know exactly which products are arriving and how they should be installed.

The final step is the styling phase, including window treatments, artwork installation, and the decorative accessories that tie the room together.
